A private letter from ex-Vice President

A private letter from ex-Vice President Wheeler, written with no thought of publication, gives it as his opinion that the Republicans will win in 1884. He has faith in the ability of the Republican Party of New York to emerge from the cloud of dust raised by dissensions among

themselves and come together under new leadership. The Crown Prince of Germany is an

Soldiers and sailors of the late war are exempt from these limitations. Applications must be made on blanks furnished by the branch which it is desired to enter. The other rules relate mostly to matters of detail concerning the conduct of the Commission. It may be that experience will show some flaws in this chart, but at the beginning it seems a sale one to sail by. Almost everything, of course, depends upon the spirit in which the commission shall do its work and the co-operation which it may receive from the principal officers in the service. If the rules be obeyed in spirit and in letter we shall see such an improvement in the civil service as will vindicate the wisdom of the experiment.

A Farmer Who bees It.

Namuel Peebles is a farmer in Iowa who thinks as he sows and reads when he rests. In his ruminations upon the tariff question he has settled down to the following conclusions:
A tariff for revenue only, if it means

anything, implies the following effect:

A general reduction of the existing duties on imports.

A general reduction of the existing duties on imports.

To be followed by a larger importation of foreign-made fabrics.

To be followed by a falling off in the demand for these made at home.

To be followed by the closing of American workshops.

To be followed by a relatively greater number of men engaged in agriculture.

To be followed by an increase in the supply of farm products, with no corresponding increase in the demand.

To be followed by a reduction of the farmer's profits.

To be followed by a reduction of the farmer's profits.

I, for one, do not like it.

Perhaps some robust philosopher who raises theories instead of corn will rise in his place, on the call of the States, and prove that Samuel Peebles doesn't know what he is talking about. Up to the present time, however, Mr. Peebles, appears to have a clear majority in his favor.

MISREPRESENTATION Fair competition is respected by all honorable business men. Seldom do we find a company of men professing to be honorable, re-

sorting to the misrepresentation of another's productions in order to increase the consumption of their own. The advertisements published, undervaluing Dr. Price's Cream Baking Powder, are absolutely false, and the parties publishing them know it to be so. The repeated analysis by many eminent chemists throughout the country, show the superiority of DR. PRICE'S CREAM BAKING POWDER.

No Ammonia, nor Alum, nor Tartaric Acid is used in it. It is one of. the oldest and most generally used Baking Powders in the market, and its healthfulness and effectiveness have been tested in a million homes, by the consumer's only reliable tests, THE TEST OF THE OVEN and years of daily use. . It is to-day, as it always has been, the MOST HEALTHFUL, PERFECT FRUIT ACID BAKING POWDER.
